- Please understand that we sell items using auction format which is normally a 7 or 10 day listing with no reserve, that normally produces what would be considered a wholesale price, we are not a retail outlet with retail prices and we do not make the item we are selling perfect in any way, some items are better than others, some are rough, some are nice, we list them and explain exactly as they are at the time of the listing, since we are not asking retail you will have to do something, may not be anything but a simple service or extra cleaning, WE HAVE NOT SPENT DAYS INSPECTING, REPAIRING AND SERVICING THIS ITEM AS A FULL RETAIL OUTLET MAY DO!

Specifications:

(UNIT IS SITTING AT A PORT ON THE TENNESSEE RIVER AND CAN BE LOADED ON BARGE/WATER TRANSPORT IF NEEDED!)

1977 American 8450 Conventional Truck Crane, Model #8450, 6x6 Truck Carrier Mounted, Detroit 8V Diesel Lower Engine SN: 8VA346755, 4-Speed Manual Shift Transmission, Air Brakes, 2,117 Actual Miles, Enclosed Driver/Operators Cab, Lights, Windshield Wiper, (4) Hydraulic Telescoping Outriggers w/Dual Controls & Cylinder Lock, American 150 Ton Lift Capacity Crane, Detroit 8V Diesel Upper Engine, Enclosed Operators Cab, 60 Foot Tubular Steel Boom, Lister/Onan 4KW Diesel Light/Power Generator, Machine SN: GS19954.

Located in Mississippi, this unit belonged to a port authority and was used for many years by the port to load/unload cargo. A few years ago the port purchased a new crane and kept this one as backup, they then purchased an additional crane and quit using this one, it sat idle for a year or so not being used and then was sold to us, we purchased it directly from the port, not from a broker, dealer or auction. The crane cranks right up and both engines run great, it has been sitting for a few years and has quite a few things that are a result of it sitting, it has a few outrigger cylinder/hose leaks, we have repaired a few and the remainder are not bad, it will need a good servicing, lubing and a serious cleaning, the tires are holding air but a couple of them are showing serious dry rot cracks, the machine has some rust but is surface rust (look at photos – nothing major), nothing eating through any substantial metal anywhere, we have not cranked the generator but were told it was operating fine when last used, the truck carrier clutch has to be engaged/disengaged at the engine, clutch works but pedal inside cab does not, the crane engine hour meter is digital and is not lighting up, we went ahead and took photographs/video of the machine running and put together, in the meantime before it is sold and picked up we will go ahead and

remove the counterweight and boom section for transport, you will be responsible for arranging either transport/hauling by road or water but we will load crane, boom and counterweight for you. We are selling the crane to crank, run, operate and for us to load out at its current location. This crane is a good unit for someone to use as a yard crane, someone in the crane resale business to rebuild, refurbish or to purchase for parts, if you are needing a 100% refurbished, repaired, approved, inspected and ready to hit a job right now and do nothing this is not for you! Someone in the business of buying/selling, repairing/refurbishing, exporting or selling parts will know exactly how to handle it~

The photos and video were taken just a few days before the listing on February 4, 2016, and show the crane in its current condition, only difference will be the counterweight and boom will be removed in between now and the time it sells! Please take the time to look at complete description, view all the photos and the videos of the crane so you will know what you are getting.

AMERICAN 8450 CONVENTIONAL TRUCK CRANE LOCATION:
Iuka, MS 38852

*~ This is a true, no reserve, absolute auction without a minimum or any type price, for
several years now we have done this with all our listings, sometimes they bring more than
we expect and sometimes less, look at our feedback and view some of the items we have
sold, just remember when the bidding ends it's over, high bidder is the high bidder and
we move on~*

~ We do not sell items before an auction ends and also do not offer items for sale locally or away from eBay, the only way to buy an item from us is auction style on eBay with no reserve!

~ We also do not offer or send 2nd chance offers, if you receive one from us then please ignore or report to eBay because it is a scam, we sell on eBay auction style with no reserve to the highest bidder, in the event the high bidder does not pay or does not take the item then we simply re-list and sell again to the highest bidder
