PALFINGER CRANE

Compact lightweights with real PALFINGER power

The cranes of the new *Compact* series are true lightweights. Their optimum ratio of lifting power to dead weight combined with their outreach make them ideal assistants for a wide range of applications. KTL cathodic dip painted and equipped with modern crane technology, the PC 1500, PC 2700 and PC 3800 set new guidelines for products in the one to four metre-tonnes range.
